For this alternative, additional costs may be charged by the board that must reasonably be incurred by the association in connection with this.

2. At the beginning of each season, the number of tubes left in stock are counted. The difference between the need and the number in stock is bought from the material subsidy. If the material subsidy is left, it will be used to make a reserve stock of shuttles. This reserve is made since the target is having no feather shuttle fee, also not in the next seasons.
3. In case that the feather shuttle fee is installed, the fee can be raised to a maximum of €50 per person. Only feather shuttle players have to pay this fee, as they are using a greater amount of the material subsidy.

The members can sign up for the autumn competition by replying to the invitation or questionnaire that will be sent at the end of February/the beginning of March. Also, during the club championships or training the interest can be inventoried as an addition to the email. We aim to form four teams in the 5th, 6th, 7th, and 8th division. However, this is not always possible therefore it is also possible that a men's team will be formed.
